

British spy tells his story

By JANE THYNN

George Blake, the British double agent who escaped from a London prison in 1966, is about to have his memoirs published. But the man who betrayed at least 42 British agents has directed that the money from the book, said to be "a substantial sum," should go to his children.

Payments and royalties from Jonathan Cape, the publishers, are being channelled through the Soviet copyright agency Vaap. The secret deal was agreed with Blake eight months ago.

Andrew Nurnberg, a literary agent who took part in the negotiations, said: "He didn't want any money because he is quite comfortably set up, so he said it should be paid to his children."

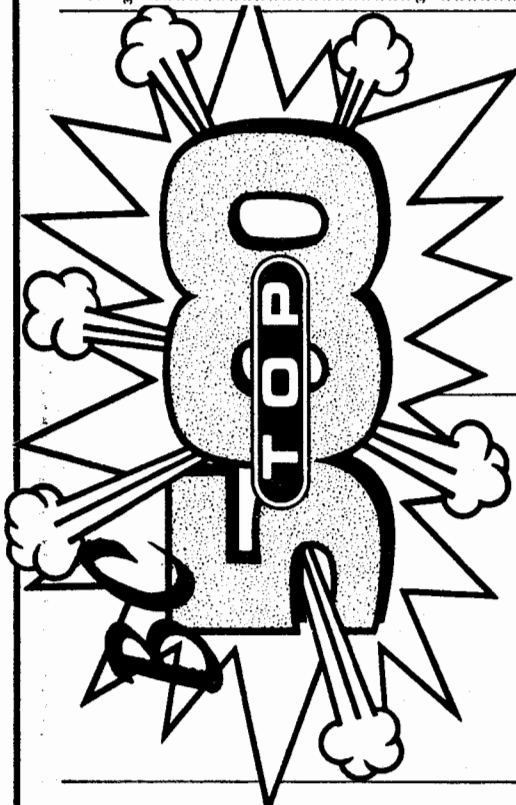

Three are from his first marriage to a British woman and the fourth, 19-year-old Misha, lives with him in his Moscow apartment.

Nurnberg, whose other clients include Boris Yeltsin, added: "Cape paid a fair amount of money but they seem to have been unable as yet to sell the serial rights."

Publication of the memoirs, timed for the end of September, is likely to raise a fierce debate about whether a British publisher should pay the family of a traitor

"Cape paid a fair amount of money but they seem to have been unable as yet to sell the serial rights."

Publication of the memoirs, timed for the end of September, is likely to raise a fierce debate about whether a British publisher should pay the family of a traitor believed to have sent agents to their deaths.

In the book, Blake is believed to paint himself as an even more damaging spy than Kim Philby.

Among disclosures he has already made to the KGB are details of an M16 (British intelligence) tapping of a telephone cable in Vienna, used by Soviet and KGB command, and the joint M16/CIA tunnel in Berlin, which bugged Soviet military communications.

Blake, now 68, lives in a luxury apartment as a retired KGB colonel, with his Russian wife Ida and Misha.

He was unmasked by a Polish defector in 1960 and sentenced to 42 years in jail — believed to be a year for every agent he betrayed.

But he was sprung from London's formidable Wormwood Scrubs prison in 1966 by two Campaign for Nuclear Disarmament activists, Pat Pottle and Michael Randle, who are only now facing trial.

The book is likely to rekindle the controversy caused by the 1968 publication of Kim Philby's book, *My Silent War*, and Peter Wright's more recent *Spycatcher*.
